

**Northern Nevada Science & Technology Festival**  
**"Science is Everywhere"**  
**April 23 – 29, 2023**

ASN Members -

At our April meeting, Paul McFarlain (ASN member and Director of the Fleischmann Planetarium and Science Center <https://www.unr.edu/planetarium>) spoke about next week's "Science is Everywhere" events. This is part of the Northern Nevada Science & Technology Festival <https://nnsiencefest.org/>. Note the dates for the astronomy events that ASN is participating in.

This festival consists of several open houses and campus museums open at UNR, and around Reno. The three UNR campus museums open, free of charge, are the Museum of Natural History, the W.M. Keck Earth Science and Mineral Engineering Museum, and the Fleischmann Planetarium and Science Center. Here is more information <https://www.unr.edu/nevada-today/news/2023/nnstf-2023>.

I see also that the College of Engineering is also having events on April 29<sup>th</sup>:

***Anyone interested in helping Paul McFarlain on Sunday April 29 or Monday April 30 contact Paul at the planetarium, 775-784-1759 (or Jim Fahey, our ASN Public Outreach coordinator at 775-356-0102).***

**Anyone interested in helping Tim Stoffel at Galena Creek Visitors Center on Saturday, April 29 call Tim at 775-741-1504. Following Tim's talk about the constellation Leo, ASN is providing telescope viewing. And yes, do bring your telescopes!**

**HERE ARE THE DATES AND LINKS FOR MORE INFORMATION:**

**April 23 - 29, Northern Nevada Science & Technology Festival  
"Science is Everywhere" week.**
